**Seats are limited however friends, colleagues and family welcome.**

**Gordon Jenkins**

**Gordon Jenkins, National Partner Wealth Management** has more than 17 years in the financial services industry. Developed over many years in banking and finance, as well as voluntary foundation and investor relations roles, Gordon has a deep network of C-level, High Net Worth, Family and Advisory relationships. The core principals of Gordon's relationships, business development and leadership revolve around knowledge, trust, privacy and integrity.

*“Wealth transition is in general mismanaged globally, largely due to the disconnect between generational differences in the needs, desires and purpose of wealth. The trusted advisor role is to manage individual needs, independent of generational differences, with passion, respect and integrity. To be involved in the decision making of a person's wealth and lifestyle is a privilege not a given.”*

**Paul Saliba**

**Paul Saliba, Chief Investment Officer**, is responsible for developing, implementing and executing the investment strategy of Lachlan Partners clients. Paul has extensive industry and academic experience, including many years as an Australian equity research and funds management specialist. Paul is respected throughout the industry with his expert advice and appears on Sky Business every Tuesday morning, providing specialist comments on the economy, locally and globally.

*“Investment strategy is about balancing the long and short term outcomes in line with the diverse requirements of our clients.”*
